

Leaf collection
Why so important

The Leaf Collection and Recycling Program is one of several services provided by Dover Township. Recycling leaves helps to reduce the amount of materials and saves landfill space. We are generating more garbage all the time and, therefore, are running out of space in existing landfills.

Leaves left in the street may interfere with traffic or drainage. Unraked or uncollected leaves may block sidewalks, fire hydrants or cover water meters.

Once the leaves are collected by the Township, they are applied to farmer's fields. This is just a part of the ongoing recycling efforts of Dover Township.

For Additional Information

DOVER TOWNSHIP LEAF COLLECTION

Leaves shall be placed by curbside/edge of public roadway in piles not to exceed four feet (4') in height by four feet (4') wide. No collection will be made on private roads. Foreign substances deposited with leaves such as residential trash, tree limbs, shrub and hedge trimming, bricks and/or stones WILL NOT BE COLLECTED.

Please place your leaves curbside, it is not necessary to call in when you are ready for pick up. If you see that we have passed your property and you were not ready for pick up, we will return for the second round in approximately one to two weeks.

TIPS FOR LEAF COLLECTION

Grass clippings and tree branches are not to be placed along the curb for pick-up.

Please rake only leaves to curb area.

Remember to park cars off the street where possible.

The Township will not return to collect any leaves after the final date in each area.

Do not place leaves along curb after the final date.

There are at least two (2) scheduled pick-ups for each area (described within).

AREAS OF COLLECTION

Dover Township is divided into four areas for leaf collection.

Area #1 from Butter Road South and Carlisle Road East.

Area #2 from West Canal Road South and Carlisle Road West.

Area #3 from West Canal North and Carlisle Road West.

Area #4 from Butter Road North to Carlisle Road East.

The Township will begin with area #1 and continue in order, but sometimes Mother Nature doesn't want to cooperate with our schedule, either the leaves do not drop from the trees early enough or snow arrives before we can complete the third round to finish out the six weeks allotted for leaf collection.

Dover Township offers curbside/roadside leaf collection for residents of the Township from November 3, 2008 to December 13, 2008. Also, Township residents can bring their bagged leaves to the Township's Leaf & Brush drop-off area located on Municipal Road behind the

Township Municipal Office every Saturday between the hours of 7 a.m. and 4 p.m. Please bring your driver's license with you to verify to the attendant that you live in Dover Township.

NOTE: Brush Collection is a separate pick-up which is another program provided by Dover Township. The Township provides brush pick-up in April and again in the fall just before Leaf Collection. Please do not put branches in the leaf piles because this causes our vacuum machines to clog. Call our office at 292-3634 for more information regarding our brush collection program.
