The Northern York County Regional Police and The Dover Township Volunteer Fire Department are working together to enhance the ability of emergency responders to access key buildings like schools, grocery stores and other marked fire lanes for emergency situations.

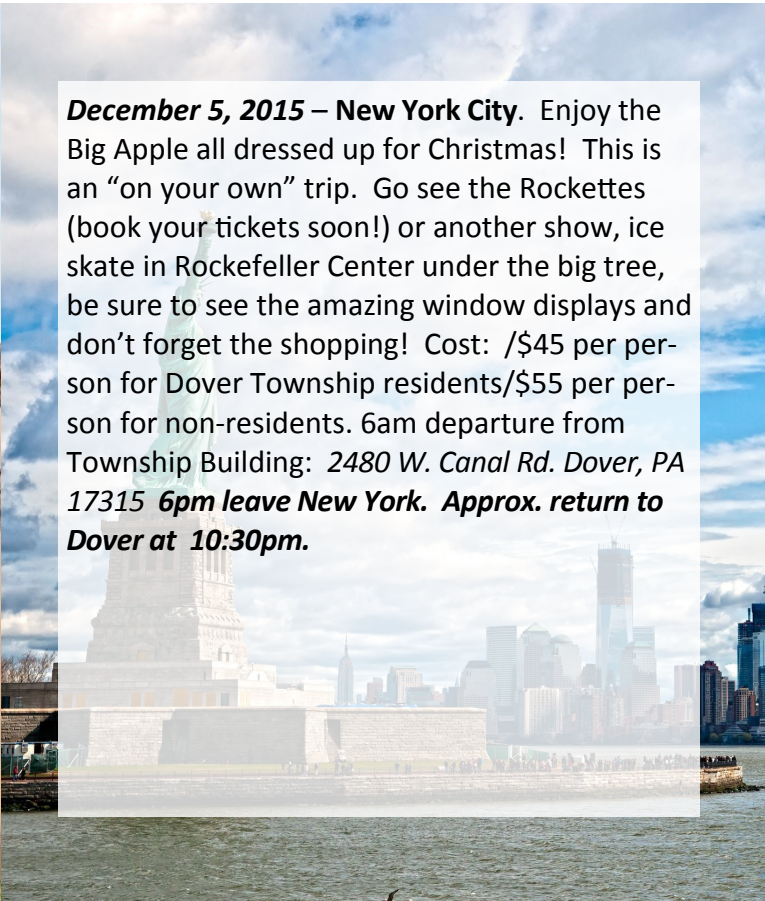

Students, visitors and district staff are prohibited from parking in areas marked as fire lanes because doing so can prevent the timely arrival of first responders to the scene of medical, police or fire emergencies on school campuses. Shoppers are also prohibited from parking in marked fire lanes for any period of time. Any fire lane must remain clear 24 hours a day, 7 days a week, 365 days a year.

Please take the time necessary to find parking in designated parking lots and not in a fire lane. Area principals are being asked to report fire-lane parking violations, and to assist in educating their campus communities in this effort.

School Bus Safety Tips

Everything you need to know to keep your kids safe in and around the school bus.

Taking the bus for the first time is a big step for your child. Help your kids get a gold star in bus safety by following these tips.

- Walk with your kids to the bus stop and wait with them until it arrives. Tell kids to stand at least three giant steps back from the curb as the bus approaches and board the bus one at a time.
- Teach kids to wait for the bus to come to a complete stop before getting off and never to walk behind the bus.
- If your child needs to cross the street after exiting the bus, he or she should take five giant steps in front of the bus, make eye contact with the bus driver and cross when the driver indicates it's safe. Teach kids to look left, right and left again before crossing the street.

- Instruct younger kids to use handrails when boarding or exiting the bus. Be careful of straps or drawstrings that could get caught in the door. If your children drop something, they should tell the bus driver and make sure the bus driver is able to see them before they pick it up.
- Drivers should always follow the speed limit and slow down in school zones and near bus stops. Remember to stay alert and look for kids who may be trying to get to or from the school bus.
- Slow down and stop if you're driving near a school bus that is flashing yellow or red lights. This means the bus is either preparing to stop (yellow) or already stopped (red), and children are getting on or off.

School buses are the safest mode of motorized transportation for getting children to and from school, but injuries can occur if kids are not careful and aware when getting on and off the bus.

How to Properly Dispose of Your Medical Waste

When Penn Waste's recycling facility opened earlier this year, they began taking more material. While the recycling capabilities have increased as technology has grown, there are still some materials that cannot be recycled in our facility. Medical waste and needles have been appearing more often in our recycling stream over the past few months. These items are a serious health hazard to our employees and the public. Do not place these items in your recycling bin.

By improperly disposing of medical items, you are putting all of our employees at risk of needle sticks, lacerations or worse. In order to ensure that our employees are in a safe work environment, please consider disposing your medical waste and needles with your trash instead of placing them with your recyclables.

In order to dispose of your medical waste properly, they recommend placing any used needles in a heavy plastic container (laundry detergent bottles, coffee cans, etc.). This will ensure that the needles will not stick any of our employees during collection. Place these materials in your trash can or bag. This will ensure that the material will be taken to one of our disposal sites and not to our recycling facility.

If you would like to read more on how to store and handle your medical waste, please visit http://www.besmartwithsharps.com/Pennsylvania_resources.

Please keep the safety their employees in mind the next time you dispose of your medical waste and needles.

Preparing Mailboxes for Winter

The Township would like to remind residents living along local roads that now is the time to prepare your mailboxes for the winter months. Snow from the plows can easily damage mailboxes that are not prepared. Mailboxes are normally places within the states legal right-of-way;

however, mailboxes damage is the responsibility of the property owner.

If a mailbox is placed as far from the edge of the road so that it is not hanging over the curb and the mailbox is on a sturdy support, it should be able to withstand the force of the snow thrown from the plow.

Place a 6 to 8 inch piece of reflective tape on the mailbox to help snow plow operators see it at night.

Remove snow from around the mailbox, but never throw it back onto the road.

Illicit Discharges 101:

What is storm water runoff?

When it rains or snows, storm water flows over streets, lawns, fields and buildings to lower areas such as lakes, streams and wetlands. This runoff can collect debris, oil, grease, pesticides, fertilizers and other pollutants that eventually make their way into our rivers, creeks or lakes.

Runoff from highways ends up in Pennsylvania's lakes and streams. It eventually ends up in the Susquehanna River and Chesapeake Bay. The pollutants washed off of streets and roads can then add to the burden of pollutants from other sources such as industrial sites, urbanized areas, and agricultural areas.

Dover's Pollution Reduction strategies

In compliance with Pennsylvania DEP and Federal EPA regulations, Dover Township has developed a Storm Water Management Plan for highways and other facilities in the urbanized portions of the Township. The goal of the plan is to reduce pollutants in storm water runoff.

The plan addresses six minimum control measures:

- Public education and outreach
- Public involvement/participation
- Illicit discharge detection and elimination
- Construction site storm water runoff control
- Post construction storm water management in new development and redevelopment
- Good housekeeping and pollution prevention

What role does the public play in Dover's Storm Water Management Plan?

In addition to being Dover's primary customer, the traveling public is has a key role in helping Dover manage storm water runoff to reduce pollutants. Litter is a one pollutant that can start on roadways and end up in streams. Reduction in littering and participation in the Township's adopt a road/right of way program are ways for people to get involved to improve the appearance of our public places, but these activities can also improve the quality of water running off of our roads. Illicit discharges are another area where the public can have a large impact on water quality.

What is an Illicit Discharge?

An illicit discharge is an illegal connection or tie-in to a storm sewer. Municipal storm sewers are designed to convey storm water runoff to nearby lakes and streams to prevent flooding, but they are not designed to handle flow from sources such as downspouts. Generally there is no treatment of the runoff before it empties into a receiving stream. Dumping anything other than storm water into a storm drain is illegal and considered an illicit discharge. This is an area where the public can have a significant effect on water quality from highways and streets.

Examples of Illicit Discharges

- Sanitary wastewater (sewage)
- Septic tank waste
- Car Wash, laundry and industrial wastewater
- improper disposal of automotive fluids and household toxics (i.e. motor oil, antifreeze or pesticides)
- Spills on roadways and other accidents

Why is an illicit discharge a problem?

Illicit discharges carry pollutants into storm water systems and from there to streams and lakes. These pollutants can cause unpleasant odors, public health concerns and harm aquatic life.

How can I help reduce Polluted Storm Water Runoff?

- Never dump anything down a storm sewer or drain
- Take used oil to your local quick lube or auto shop
- Dispose of pet waste in a trash can
- Wash your car on your lawn so excess water, Chemicals and dirt are filtered through grass and vegetation
- Visit Pennsylvania DEP's web site for more information on storm water

Weigelstown Lions Serve the Dover Community

The Weigelstown Lions Club celebrated 60 years of community service this year. During the July, 2014 to June, 2015 year, this group of Lions spent over 700 hours of their time serving the Dover Community and made numerous donations to local community organizations. Lions assisted at National Night Out, Community Day at Lehr Park, and Food Distribution at Dover Food Bank to name a few. Additionally, moneys raised from chicken BBQ's and the annual Basket/Purse Bingo, have helped support many local organizations such as Boy and Girl scouts, Dover Athletic Association, Local

Community Library, Heritage Senior Center, Dover Township Volunteer Fire Department, Dover Area Food Bank, and others. The Weigelstown Lions final fundraiser for 2015 will be our Chicken BBQ on Saturday, October 3rd. Stands will be located at CVS and the Fox Run/Carlisle Road intersection. Chicken will be available starting at 10:30am until sold-out. A chicken dinner includes ½ chicken, baked potato, roll and applesauce for \$7.50. Impact

"You can't imagine! You can't imagine! You can't imagine!" That was the response that was heard from a guest who had, until an hour before, been in desperate need of a job in order to provide for his wife and young children. He had just gotten a full time job with overtime possibilities. With the job and our help with rent and gasoline, he has gained new hope.

Engage

On Thursday, October 22, 2015 from 9:00 am—11:00am, we will have a job fair at the Dover Center and are looking forward to being able to connect our guests looking for jobs with potential employers. The job fair will be open to the public.

SHILOH GARDEN CLUB NEWS

Our next meeting will be held October 25, 2015 at the Dover Community Center 3700 Davidsburg Rd. Dover, PA 17315.

The speaker will be Mr. Clayton Lutz, PA Regional wildlife biologist. He will present barn owl conservation in Pennsylvania.

Membership meeting begins at 10:45 am with dessert served by the hostess committee at noon. Program follows at 12:30 pm. Check-out this event as it should be quit interesting. Guests are welcome to attend.

Our club also received a blue ribbon recently at the York Fair for the 250th Anniversary Celebration. We entered a display of 50 years of our garden club, which was well enjoyed by everyone.

Congratulations to all members who contributed to this successful venture.

On November 18th, we will again meet at the Dover Community Center for a greens workshop. This is a Wednesday , rather than a Tuesday . Members will make Holiday arrangements which will be delivered to club members and friends living in assisted living facilities who cannot attend meetings.

Our email address is: ShilohGardenClub@aol.com

Please contact us for further information.
