

community REPORT

Spring 2010 Brush Collection

April 26, 2010 to May 28, 2010

When you have your brush placed along the curbside or roadside, please call 292-3634 to advise us of your address and a crew will be out to pick it up.

During this time period, we will only pick up brush, tree branches and shrubbery without roots, ground or sod.

Please keep the lengths no longer than six feet long and less than 6 inches in diameter; larger materials need to be brought to the drop off area.

Important! Please do not mix leaves or other yard waste into the brush you place at curbside.

If you miss curbside pick-up, remember !!

Brush drop off is located on Municipal Road behind the Township Building at 2480 West Canal Road, at the salt dome gate.

Fax: 717-843-1544

Fire Prevention

The best way to practice fire safety is to make sure a fire doesn't break out in the first place. That means you should always be aware of potential hazards in your home. Start by keeping these tips in mind.

Check all electrical appliances, cords, and outlets

- ☐ Are your electrical appliances in good condition, without loose or frayed cords or plugs?
- ☐ Are your outlets overloaded with plugs from the TV, computer, printer, video game system, and stereo?
- ☐ Are you overusing an extension cord?
- ☐ Do the light fixtures in your home contain bulbs that are the correct wattage?
- ☐ Does your home contain GFCIs (ground-fault circuit interrupters) and/or AFCIs (arc-fault circuit interrupters), which prevent electrical shock and fire by shutting off faulty circuits?

Look around your house for potential problems. And unless you're a trained electrician, be careful about do-it-yourself electrical projects. Studies have shown that many home fires are caused by improper installation of electrical devices.

Other tips:

- ☐ Replace or professionally repair any appliances that spark, smell unusual, or overheat.
- ☐ Don't run electrical wires under rugs.
- ☐ Make sure lamps and night-lights are not touching bedspreads, drapes, or other fabrics.
- ☐ Use caution when using electric blankets.
- ☐ Don't let kids use kitchen appliances by themselves and supervise any art or science projects that involve electrical devices.
- ☐ Cover any outlets that are not in use with plastic safety covers if you have toddlers or young children in your home.

Information Provided by Dover Township Volunteer Fire Department public Education Committee and Deputy Chief Glenn Jansen

Dover Area Recreation Programs

For more information or to reserve a park,
call Dover Township Office at 292-3634 (ask for Kristal)

Summer Concert Series

Dover Township Recreation is very excited to announce their lineup for the 2010 Summer Concert Series! Our concerts are held at the Dover Community Park, which is located at 2481 W. Canal Road (just across from the township building). In the case of bad weather "The show must go on" and it will be at the Community Building located at 3700 Davidsburg Road. ALL proceeds from concession sales will go to various non-profit organizations throughout the Dover Community. Come out on a Sunday afternoon with your lawn chair, have a hot dog to support a local organization, and enjoy some great music for free! Yes that's right all the concerts are FREE!!

Dover Intermediate Band - Sunday May 16th 6 pm- 8 pm

Dover's Intermediate Band will be performing some wonderful summer classics. Come out and support your local community!

Bob Plunkert and Real Country - Sunday June 6th 6 pm- 8 pm

Bob Plunkert is no stranger to the country music world. He has shared the stage with nationally known artists such as Martina McBride, Patty Loveless, and Diamond Rio among others and he's bringing his talents to Dover Township!

Tall in the Saddle - Sunday July 11th 6 pm -8 pm

We don't have Chili in a bowl but we have Chili in the Band!! Join "Chilibear" and the gang for some good time music!

Dover Youth Strings - Sunday August 15th 6 pm - 8 pm

Relax to the sounds of a local String Orchestra. Dover Youth Strings will be playing many different styles of music.

Sheerwood Country - Sunday September 12th 5 pm- 7 pm

Come and enjoy some good old fashioned country music with Sheerwood country. They have performed in Dover for many years and have a great sound!

Preschool Playground

This is a great opportunity for Dover youngsters to learn in a classroom setting and also make new friends! They will be supervised by an outstanding staff and they will be involved in fun activities everyday!

Dates: June 21- July 29 (Mon- Thurs)

Time: 4-5 yr Olds 9 am – 10:15 am

3 yr olds 10:30 am – 11:45 am

Location: Log House (Dover Community Park- 2481 W. Canal Rd)

Cost: \$20 Residents - \$25 Non Residents

****Notice****

Class size is limited to 20 participants. Pre-registration is required!!

New

Wise Kids Outdoor Summer Camp

Are your kids just itching to be outside? The Wise Kids Outdoors is a summer camp program which offers children an opportunity to explore the world of nature while teaching them about the importance of eating right and being physically active. Each Wise Kids Outdoors session sends them on outdoor adventure missions, guided by trained staff. Missions teach them about critters and bugs, the weather, how to safely explore in the outdoors, stewardship principals of reducing and reusing, and caring for the earth. The concept of Energy Balance is woven into each lesson to inspire wise nutrition and activity choices. They will come away with a better understanding of how both humans and nature need to live in balance to be healthy. Most importantly, they will get outside and begin to reconnect to the world around them.

Dates: June 28th through July 16th

Location: Brookside Park - 4054 Fox Fun Rd.

Cost: \$15 per child

****Please note that there are only 30 openings, so be sure to sign up early!!****

Summer Playground

This is a great opportunity for the children of Dover to continue to learn and grow with their peers throughout the summer. They will be supervised by an outstanding staff, participate in numerous activities, and have the opportunity to enjoy field trips around the area!

Dates: June 21- July 30 (Mon- Fri)

Time: 9 am- Noon

Cost: \$30 Residents - \$45 Non Residents

Ages: 6-12 year olds

Two locations: Dover Community Park: 2481 West Canal Rd.

Lehr Park- 3700 Davidsburg Rd

Are you home for the summer and looking for a great opportunity to work with kids? Then does Dover Parks and Recreation have a job for you! Contact Kristal at 717-292-3634 for more information about becoming a Playground Counselor or Counselor-In-Training for the Summer Playground, Preschool Playground programs or our new summer program Wise Kids Outdoor!

Safety School

Safety First!! Let Dover Township help to teach your children safety with our Safety School. Dover Township will host its annual Safety School at the Log House (2481 W. Canal Rd) Monday through Thursday 6:30 to 8 pm beginning July 5th and ending July 15th. Registration is open to all children ages 4-6. Class size is limited to 20; therefore pre-registration is required. Topics will include water safety, fire safety, and bike safety. Also Special Guests will appear! Registration forms can be picked up at the township offices.

Date: July 5th through July 15th

Monday - Thursday

Time: 6:30 pm to 8 pm

Location: Log House - 2481 W. Canal Rd.

Cost: \$20 for Residents - \$30 for Non-residents

Challenger British Soccer Camp

Dates: July 19th- 23rd

Location: Lehr Park

3700 Davidsburg Rd.

Program design is determined by ages as listed below:

First Kicks	Mini Soccer	Half Day (1)	Half Day (1)	Half Day (2)	Half Day (2)
Ages 3-4 yrs	Ages 5-6 yrs	Ages 6-9 yrs	Ages 10-14 yrs	Ages 6-9 yrs	Ages 10-14 yrs
9-10 am	10:15-11:45 am	9-12 am	9-12 am	5:30-8:30 pm	5:30-8:30 pm
\$80	\$95	\$125	\$125	\$125	\$125

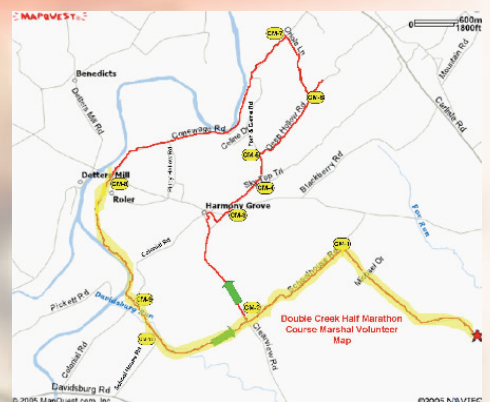

INCLUDED WITH CAMP REGISTRATION:

- Soccer Ball
- Challenger camp T-shirt
- Soccer Skills Evaluation
- Giant Soccer Poster
- If you sign up online you receive a FREE cool game jersey (must be at least 45 days before start of camp)

This is a great opportunity for kids in the Dover area to advance their soccer skills through valuable instruction from an exceptional Challenger British Soccer Camp Staff. Registration forms can be picked up at the Dover Township Office (2480 W. Canal Rd.) or you can register online at www.challengersports.com. Call Kristal at 292-3634 for more information!

NOTICE TO RESIDENTS

Saturday morning June 19th, WellSpan Health and a number of other local businesses are sponsoring the Double Creek Half Marathon/5k Run and Bike Tour in your neighborhood. We want you to be aware that there will be many runners and bikers traveling by your house on that date. Please be careful when traveling to and from your home to ensure the safety of the Double Creek participants and supporting volunteers. Please keep any dogs or other animals secure to keep them from running on the road as runners and bikers go by.

We apologize for any inconvenience to residents on race day. We have been working with the Township, Northern Regional Police and the Dover Volunteer Fire Police to coordinate a few road closures between 7:00 am and 11:00 am on June 19th. The following roads will be closed between 7:00 am and 11:00 am to ensure the safety of the runners and bike riders. North Salem Rd will be closed from North Salem Elementary School to School House Rd. School House Rd will be closed from North Salem to Conewago Rd. Conewago Rd will be closed from School House to Harmony Grove Rd. Please if possible plan your activities accordingly, we understand if this is not possible and we ask you to just please be careful. Thank you for your tolerance and support.

2010 Summer Programs

ZUMBA

When:

Monday, Wednesday and
Thursday Evenings

Time:

6 pm- 7 pm

Where:

Community Building
3700 Davidsburg Rd

Cost:

See Instructor for pricing

MORNING- KEEP IT FIT!

This class is designed to strengthen your body and tone muscles. The class begins with no impact aerobics to strengthen your heart and warm up your body. We then conclude with muscle conditioning exercises and stretches. We use hand weights, stability balls, bands and more! Class held at the Community Building 3700 Davidsburg Rd.

When:

Class – Mon & Wed 9:45 – 11 AM

Cost:

See Instructor for pricing

6:45 to 7:45 PM

\$30 Resident

punch card

\$33 Non Resident

punch card

(16 classes per card)

Class held at the Dover Township Building.

To register for any programs, please stop by the Dover Township offices between the hours of 8 am – 4:30 pm, located at 2480 W. Canal Rd. Any questions about any programs can be directed to Kristal Narkiewicz at 292-3634.

Shiloh Garden Club News

The Shiloh Garden Club meets each month at 10:45 a.m. in the Dover Community Center. Everyone is welcome.

April 22, 2010 the meeting will begin at 10:30 a.m. and the Program begins at 12:30 p.m. The Program will be 'Container Planting'. The Barkdolls, owners of "WHY NOT" Greenhouse in Dover will give us advice on this subject.

May 22, 2010 the program will be "Pre-Flower Show Workshop for Flower Show. We will be working in groups of six or eight and will plan, stage, arrange and present their own flower show. Very interesting.

June meeting will be announced at a later date.

If you are interested in attending our meeting, for details please call 757-4740.

Girl Scout in the Heart of PA

Spring registration open to all girls from Kindergarten to 12 grade.

April 19 and April 20 from 6:30-8:00 pm in the Girl Scout room at the Dover Community building on Davidsburg Rd.

Registration fee \$12.00 cash or check.

Any questions call Elaine Kroft 292-1392, Cheryl Foeks 764-9009, Lisa Lucabaugh 767-5055.

Dover Ambulance would like to tell Dover Residents about the Handicap Van Service we offer.

This piece of equipment is for handicap individuals that are in wheel chairs or bed bound, who need transport to doctors offices, surgical appointments, trips home from the hospital and other transport needs. This unit is not staffed by medical personnel. Dover Ambulance is nonprofit and the rates for the service reflect that. For example a one way trip via wheelchair includes the first hour and 20 miles for \$40, please call for other types of transport pricing. This type of transportation is not covered by insurance so it is a out of pocket expense. We are licensed by the PUC, and the 911 ambulance membership does not include this separate service. Dover Ambulance is proud to be serving Dover for over 52 years! Please call 292-9776 and speak to Keith or Peggy for more information.

To Trap or Not to Trap, That is the Question.

Question from a resident: Should I have a building trap and sewer vent outside my house?

Answer: Ask your plumber.

According to the International Construction Codes that the Dover Township Board of Supervisors adopted, a building trap& vent for your building sewer may not be required. If you go on the internet and search “sewer traps”, you will find a lot of controversy about them. Some plumbers curse them, others bless them. If the house piping and all its drains and vents are **properly installed and maintained**, an outside trap and vent on your building sewer may be redundant. It all depends on many complex factors about the location, depths, slopes, etc., and even temperature. Many communities do not require them, and others mandate them.

My personal opinion as a homeowner is that a building trap/vent for a building sewer is cheap insurance. In my experience, 99.9%+ of the buildings do not need them. However, how can I be sure my home is not one of the 0.1% that may benefit by having a building trap? It does not guarantee that sewage will never backup into my home (only a backflow preventer can do that), but it lessens the chances for sewer odors and fumes entering my house. If the township smoke-tests the sewers in your neighborhood, a trap should also keep the test smoke out of your house.

Note that cleanouts are required at the curb, just outside the building, and at any change of building sewer direction. Do not bury nor pave over your cleanouts. You need access in case of blockage.

ANNUAL DRINKING WATER QUALITY REPORT
PWS ID#: 7670073 SYSTEM NAME: Dover Township

Este informe contiene información muy importante sobre su agua de beber. Tradúzcalo o hable con alguien que lo entienda bien.

WATER SYSTEM INFORMATION:

This report shows our water quality and what it means. If you have any questions about this report, please contact Chuck Parley at 717-292-3634. If you wish, the township supervisors meet on the 2nd and 4th Mondays of each month at the township building on West Canal Road.

WATER SOURCE:

Our water comes from 10 wells located inside the township's boundaries. Our treatment consists of Disinfection only. The township also buys water from the York Water Company. York's water comes from the South Branch of the Codorus Creek and receives complete treatment (flocculation, sedimentation, and filtration) in addition to disinfection.

A Source Water Assessment of our source(s) was completed in 2007 by the Pa Department of Environmental Protection (PADEP). The Assessment has found that our sources are potentially susceptible to manufacturing facilities, community pools, residential activities, transportation corridors, and public sewer lines. The Township utilizes raw water quality monitoring and wellhead protection activities to reduce the risks of source water contamination. Overall, our sources have little risk of significant contamination. Summary reports of our Assessment are available at www.depweb.state.pa.us, keyword: source water. Complete reports were distributed to municipalities, the water supplier, local planning agencies, and DEP offices. Copies of the complete report are available for review at the PADEP South Central Regional Office, Records Management Unit at 717-705-4761.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These persons should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

MONITORING YOUR WATER:

We routinely monitor for contaminants in your drinking water according to federal and state laws. The following tables show the results of our monitoring for the calendar year January 1 to December 31, 2009. The State allows us to monitor for some contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of our data is from prior years in accordance with the Safe Drinking Water Act. The date has been noted on the sampling results table.

DEFINITIONS AND ABBREVIATIONS:

Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRDL): The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRDLG): The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

Treatment Technique (TT): A required process intended to reduce the level of a contaminant in drinking water.

Millions/year = millions per year (a measure of

Radiation absorbed by the body. (mSv/L)

µgB = parts per billion or micrograms per liter

µgms = parts per million, or milligrams per liter

ppt = parts per trillion, or nanograms per liter

pCi/L = picocuries per liter (a measure of radioactivity)

pgg = parts per quadrillion, or picograms per

DETECTED SAMPLE RESULTS:

Chemical Contaminant	MCL in CCR Units	MCLG	Highest Level Detected	Range of Detections	Units	Violation	Sources of Contamination
Nitrate-2009	10	10	4.3	0.0-4.3	ppm	NO	Runoff from fertilizers use, Leaching from septic tanks, sewage, Erosion of natural deposits
Haloacetic Acids-2009	60	N/A	36	0-36	ppb	NO	By-product of drinking water disinfection
Trihalomethanes-2009	80	N/A	37.2	0-37.2	ppb	NO	By-product of drinking water disinfection
Trichloroethylene-2009	5	0	1.7	0-1.7	ppb	NO	Discharges from metal degreasing sites and other factories.
Combined Radon-2008	5	0	2.29	1.24-2.29	pCi/l	NO	Erosion of natural deposits
Chlorine	MRDL	MRDL G	Level Detected	Range	Units	Violation	Source
Chlorine-2009	4	4	0.7	0.41-0.7	ppm	NO	Water additive to control microbes

Contaminant	Action Level (AL)	MCLG	90 th Percentile Value	Units	# of Sites Above AL of Total Sites	Violation of TT	Sources of Contamination
Lead-2007	15	0	0	ppb	0/33	NO	corrosion of household plumbing
Copper-2007	1.3	1.3	0.385	ppm	0/33	NO	corrosion of household plumbing

EDUCATIONAL INFORMATION:

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and livestock.
- Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources agriculture, urban storm water runoff, and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also, come from gas stations, urban storm water runoff, and septic systems.
- Radioactive contaminants, which can be naturally occurring, or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA and DEP prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. FDA and DHP regulations establish limits for contaminants in bottled water which must provide the same protection for the public.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

OTHER INFORMATION:

"If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Dover Township is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>."

The township completed the first and second sets of UCMR2 monitoring in calendar year 2009. The results are available at the township building. Call the township at 717-292-3634 to make arrangements to see these results.

NOTICE TO ALL PUBLIC WATER AND SEWER:

You can now pay your bill on our website, www.dovertownship.org

UPDATED CONTACT INFORMATION REQUESTED

In order to be properly notified of an **Emergency Situation** such as Water Pressure/Boil Advisories, Snow Emergencies, and Cancelled Events, Dover Township would like you to update your contact information.
