SPRING 2013

WE NEED YOU!
THURSDAY, APRIL 18
COMPOSTING, RAIN GARDENS AND YOU

WHO: Dover Township Residents, Community Groups, Youth Organizations, etc.

WHAT: Join us for an informative session about how you can help contract stormwater on your property and in the Dover Community while also improving our water quality! See what it takes to compost and install a rain garden at home. Find out how your community group can partner with the township to clean up our community.

WHERE: Dover Township’s Brookside Park Carousel Building

WHEN: April 18th, 2013 at 6:30 p.m.

WHY: Because you care about the community you live in and want to do your part to make it a better place to live! It’s up to all of us to work together!

Sponsored by
Dover Township & West Manchester Township in conjunction with York County Planning Commission and York County Conservation District

EDUCATIONAL INFORMATION:

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radiocative material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban stormwater run-off, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, and septic systems.
- Radionuclide contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA and DEP prescriptions regulations which limit the amount of certain contaminants in water provided by public water systems. FDA and DEP regulations establish limits for contaminants in bottled water which must provide the same protection for public health. Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

2012 ANNUAL DRINKING WATER QUALITY REPORT

ESTE INFORME CONTIENE INFORMACIÓN IMPORTANTE ACERCA DE SU AGUA POTABLE. HAGA QUE ALGUIEN LO TRADUCZA PARA USTED, HABLE CON ALGUIEN QUE LO ENTENDA. (ESTE REPORTE CONTIENE INFORMACIÓN IMPORTANTE ACERCA DE SU AGUA POTABLE. HABLE CON ALGUIEN QUE LO ENTENDA.)

WATER SYSTEM INFORMATION: This report shows our water quality and what it means. If you have any questions about this report or concerning your water utility, please contact Chuck Farley at 717-292-3634. We want you to be informed about your water supply. If you want to learn more, please attend any of our regularly scheduled Board of Supervisors meetings. They are normally scheduled the 2nd and 4th Monday of the month, unless the date happens to be a holiday. Call the Township Office (717-292-3634) to confirm the Board of Supervisors meeting dates.

SOURCE(S) OF WATER: Our water sources are 10 wells located inside the physical boundaries of Dover Township. The water from our wells is disinfected as the only form of treatment. However, later this year (2013) we plan to bring Well No. 10 back online with a permitted Nitrate Removal system. We also purchase fully treated and disinfected water from the York Water Company.

A Source Water Protection Plan (SWP Plan) was completed in 2010 by SSM Group, Inc. The Plan was paid for by the PA Department of Environmental Protection (Pa. DEP). The SWP Plan found that our source(s) are potentially susceptible to RCRA facilities, golf courses, transportation corridors, commercial property, gas stations, underground fuel tanks, quarries, farming and manure application practices, and natural gas pipe lines. However due to water quality monitoring and the regulation of land use activities within our well head protection areas, the risk of contamination is low.

Our SWP Plan is available for public review at the Dover Township Municipal Building, 2480 West Canal Road, Dover, PA 17315. Call Chuck Farley, PWD at 717-292-3634 is you wish to schedule a review of the SWP Plan.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, persons with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

MONITORING YOUR WATER: We routinely monitor for contaminants in your drinking water according to federal and state laws. The following tables show the results of our monitoring for the period of January 1 to December 31, 2012. The State allows us to monitor for some contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of our data is from prior years in accordance with the Safe Drinking Water Act. The date has been noted on the sampling results table.

DEFINITIONS:
- Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
- Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
- Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health.
- Maximum Residual Disinfectant Level (MRDL): The level of a disinfectant that is necessary for control of microbial contaminants.
- Maximum Residual Disinfectant Level Goal (MRDLG): The level of a disinfectant that is necessary for control of microbial contaminants.

TREATMENT TECHNIQUE (TT): A required process intended to reduce the level of a contaminant in drinking water.

pCi/L = picocuries per liter (a measure of radioactivity)
ppb = parts per billion, or micrograms per liter (μg/L)
ppm = parts per million, or milligrams per liter (mg/L)

Hello All,

Last year your 100% Volunteer Fire Department responded to a total of 568 calls for service in Dover Township and the surrounding areas. We could not have responded to these without your support and we would like to thank you.

Remember to come out on Friday nights for bingo at the Dover Community center located at 3700-2 Davidsburg Road! The money raised goes directly to help us better keep you safe.

Do you have a group or organization that would like us to visit? Call us at 292-4196 or stop by and schedule a visit to see us and learn about fire safety! We are located at 3700-1 Davidsburg Road directly in front of the Dover area library.

Lastly we would like to remind you of some fire safety.

- Please do not drive thru flood waters. Turn around, don't drown!
- Remember to check your smoke detectors and have them on every floor of your home and in every bedroom.
- Have a fire extinguisher in your kitchen and know how to use them. Make sure that they are fully charged.
- Always have two ways out of your home and set up a meeting place for your family.
- Once out, stay out! Do not go back inside and risk being hurt or worse.

Check out what’s happening at Heritage Senior Center for Dover Community residents age 60 and over. Stop in Mon-Fri, 8am-3pm and get acquainted!

We offer a hot lunch at Noon each day. Activities include cards, Wii games, Bingo, Exercise Classes, Bible Study, Knitting Group, Book Discussion Group, Day/Oversight Trips, Computer Lab, Crafts, Health/Nutrition Education and lots of fun and socialization.

Volunteer for Our Meals-on-Wheels Program that distributes meals to homebound seniors Mon-Wed-Fri. Call Marci at 292-7471 for details – you can make a difference in someone’s life.

WISE KIDS OUTDOOR SUMMER CAMP

Do you have kids that love to be outside all summer? Do they love to play in the creeks or learn about ecosystems? Do they love to learn about bugs and animals? Then do we have the camp for you. Your child will explore Brookside Park and all the nature that surrounds it. They will follow a mission for each day that teaches them about nature, weather, and eating healthy. They will come away with a better understanding of how both humans and nature need to live in balance to be healthy. Most importantly, they will get outside and begin to reconnect to the world around them.

DATES: July 1st through August 2nd (No camp on July 4th or July 24th)
LOCATION: Brookside Park - 4054 Fox Run Road, Building 1 the Dance Hall
COST: $45 for residents and $65 for Non-residents (Fee includes workbook & backpack)

SUMMER PLAYGROUND

This is a great opportunity for the children of Dover to continue to learn and grow with their peers throughout the summer. They will be supervised by an outstanding staff, participate in numerous activities, and have the opportunity to enjoy field trips around the area! New this summer we will be taking a lot more field trips to some fun locations like the Utz Chip Factory, Whitaker Science Center, the Turkey Hill Experience along with bowling and swimming. Registration for the field trips will be taken at camp. More information will be available on our website at www.dovertownship.org under Parks and Recreation.

DATES: June 24th - August 2nd (Mon-Fri) - (No camp on July 4th or July 24th)
TIME: 9:00 am - 12 Noon
COST: $40 Residents (for all 6 weeks of camp) • $60 Non Residents (for all 6 weeks of camp)
AGES: 6-12 year olds (must be 6 yrs old by June 24th)
TWO LOCATIONS: Dover Community Park: 2481 West Canal Rd. • Lehr Park: 3700 Davidsburg Rd

PRESCHOOL PLAYGROUND

This is a great opportunity for Dover youngsters to learn in a classroom setting and also make new friends! They will be supervised by an outstanding staff and they will be involved in fun activities every day! Each week has a theme and they will play games, sing songs and make a fun craft every day that has to do with that theme.

DATES: June 24th – August 1st (Mon-Thurs) No preschool on July 4th or July 24th
TIME: Morning, 3 yr olds 10:30 am –11:45 am (Must be 3 yrs old by June 24th)
LOCATION: Log House (Dover Community Park - 2481 W Canal Rd)
COST: $30 Residents • $40 Non Residents

Are you home for the summer and looking for a great opportunity to work with kids? Then Dover Township Parks and Recreation have a job for you! Contact Kristal Kennedy at 717-292-3634 for more information about becoming a Playground Counselor or Counselor-In-Training (13-15 yrs old) for the Summer Playground or Wise Kids Outdoor!

LOG HOUSE for Kids!

HISTORY

In 1736, the Log House was built as a home for Judge Motley. In 1847, the house was sold to the Federal Government who used it as a military headquarters. In 1900, the house was deeded to Henry Stover who lived here until his death in 1927. In 1928, the house was purchased by the Town of Dover and is now Heritage Senior Center.

Cheryl Everhart, Publicity Chairman
Hello All,

Last year your 100% Volunteer Fire Department responded to a total of 568 calls for service in Dover Township and the surrounding areas. We could not have responded to these without your support and we would like to thank you.

Remember to come out on Friday nights for bingo at the Dover Community center located at 3700-2 Davidsburg Road! The money raised goes directly to help us better keep you safe.

Do you have a group or organization that would like to visit us? Call us at 292-4196 or stop by and schedule a visit to see us and learn about fire safety! We are located at 3700-1 Davidsburg Road directly in front of the Dover area library.

Lastly we would like to remind you of some fire safety.

- Please do not drive thru flood waters. Turn around, don't drown!
- Remember to check your smoke detectors and have them on every floor of your home and in every bedroom.
- Have a fire extinguisher in your kitchen and know how to use them. Make sure that they are fully charged.
- Always have two ways out of your home and set up a meeting place for your family.
- Once out, stay out! Do not go back inside and risk being hurt or worse.

Check out what’s happening at Heritage Senior Center for Dover Community residents age 60 and over. Stop in Mon-Fri, 8am-3pm and get acquainted!

We offer a hot lunch at Noon each day. Activities include cards, Wii games, Bingo, Exercise Classes, Bible Study, Knitting Group, Book Discussion Group, Day/Overnight Trips, Computer Lab, Crafts, Health/Nutrition Education and lots of fun and socialization.

Volunteer for Our Meals-on-Wheels Program that delivers meals to homebound seniors Mon-Wed-Fri. Call Marci at 292-7471 for details – you can make a difference in someone’s life.

SUMMER PLAYGROUND

This is a great opportunity for the children of Dover to continue to learn and grow with their peers throughout the summer. They will be supervised by an outstanding staff, participate in numerous activities, and have the opportunity to enjoy field trips around the area! New this summer we will be taking a lot more field trips to some fun locations like the Utz Chip Factory, Whitaker Science Center, the Turkey Hill Experience along with bowling and swimming. Registration for the field trips will be taken at camp.

FOR MORE INFORMATION PLEASE VISIT OUR WEBSITE AT WWW.DTVD9.COM

Safety First!!! Let Dover Township help to teach your children safety with our Safety School. Dover Township will host its annual Safety School at the Log House (2481 W. Car Show, Dover High School
May 18th – 8am-1pm
Dover HS students Seth Ahrens and Joe Abate are planning a car show at the high school to surrounding areas. We could not have responded to these without your support and we would like to thank you.

Lastly we would like to remind you of some fire safety.

- Please do not drive thru flood waters. Turn around, don’t drown!
- Remember to check your smoke detectors and have them on every floor of your home and in every bedroom.
- Have a fire extinguisher in your kitchen and know how to use them. Make sure that they are fully charged.
- Always have two ways out of your home and set up a meeting place for your family.
- Once out, stay out! Do not go back inside and risk being hurt or worse.

Check out what’s happening at Heritage Senior Center for Dover Community residents age 60 and over. Stop in Mon-Fri, 8am-3pm and get acquainted!

WE OFFER A HOT LUNCH AT NOON EACH DAY. ACTIVITIES INCLUDE CARDS, WII GAMES, BINGO, EXERCISE CLASSES, BIBLE STUDY, KNITTING GROUP, BOOK DISCUSSION GROUP, DAY/OVERNIGHT TRIPS, COMPUTER LAB, CRAFTS, HEALTH/NUTRITION EDUCATION AND LOTS OF FUN AND SOCIALIZATION.

VOLUNTEER FOR OUR MEALS-ON-WHEELS PROGRAM THAT DELIVERS MEALS TO HOMEBOUND SENIORS MON-WED-FRI. CALL MArCI AT 292-7471 FOR DETAILS – YOU CAN MAKE A DIFFERENCE IN SOMEONE’S LIFE.

**DOUBLECREEK**

**On Saturday, June 15th, 2013 WellSpan Health will be sponsoring the Double Creek Half & Run in Dover. This is the 10th year we have conducted the event in Dover and the fifth year that we have requested road closures. The race will start at the North Salem Elementary School and wind through the country roads surrounding the Dover area, passing the scenic Conewago, Salamon Run and Bermudian Creeks from which the race gets its name. The first event, the Half Marathon run, will start at 7:00 AM. At 7:30, the 63 and 30 mile bike tour will begin. At 9:30, the 5K run will start and at 10:00 is the Fun Run.**

Since safety is a top priority, once again we are asking that the Northern Regional Police and the Dover Fire Police support our event to help with traffic control and support proposed road closures. Also as a safety precaution, we would again like to send an informational letter to race route residents to make them aware of the event and ask that they please keep their dogs tied or indoors between 7 AM and Noon on the day of the race. Last year the Double Creek event had grown to over 900 participants. The proceeds from the event benefit the Healthy Community Pharmacy program. This program provides prescription for those people who might not otherwise be able to afford it. There are currently over 200 residents in the Dover area alone that take advantage of the Healthy Community Pharmacy.

2012 ANNUAL DRINKING WATER QUALITY REPORT
PWS ID#: 7670073 SYSTEM NAME: Dover Township

Este informe contiene información importante acerca de su agua potable. Haga que alguien lo traduzca para usted, o hable con alguien que lo entienda. (This report contains important information about your drinking water. Have someone translate it for you, or speak with someone who understands it.)

WATER SYSTEM INFORMATION: This report shows our water quality and what it means. If you have any questions about this report or concerning your water utility, please contact Chuck Farley at 717-292-3634. We want you to be informed about your water supply. If you want to learn more, please attend any of our regularly scheduled Board of Supervisors meetings. They are normally scheduled the 2nd and 4th Monday of the month, unless the date happens to be a holiday. Call the Township Office (717-292-3634) to confirm the Board of Supervisors meeting dates.

SOURCE(S) OF WATER: Our water sources are 10 wells located inside the physical boundaries of Dover Township. The water from our wells is disinfected as the only form of treatment. However, later this year (2013) we plan to bring Well No. 10 back online with a permitted Nitrate Removal system. We also purchase fully treated and disinfected water from the York Water Company.

A Source Water Protection Plan (SWP Plan) was completed in 2010 by SSM Group, Inc. The Plan was paid for by the PA Department of Environmental Protection (Pa. DEP). The SWP Plan found that our source(s) are potentially susceptible to RCRA facilities, golf courses, transportation corridors, commercial property, gas stations, underground fuel tanks, quarries, farming and manure application practices, and natural gas pipelines. However due to water quality monitoring and the regulation of land use activities within our well head protection areas, the risk of contamination is low.

Our SWP Plan is available for public review at the Dover Township Municipal Building, 2480 West Canal Road, Dover, PA 17315. Call Chuck Farley, PWD at 717-292-3634 is you wish to review a copy of the SWP Plan.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, persons with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

MONITORING YOUR WATER: We routinely monitor for contaminants in your drinking water according to federal and state laws. The following tables show the results of our monitoring for the period of January 1 to December 31, 2012. The States allows us to monitor for some contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of our data is from prior years in accordance with the Safe Drinking Water Act. The data has been noted on the sampling results table.

DEFINITIONS:

Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water.

Maximum Contaminant Level Goal (MCLG): As close as feasible using the best available treatment technology.

Maximum Contaminant Level (MCL): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRD L): The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRD LG): The level of a drinking water disinfectant below which there is no known or expected risk to health. MRD L/Ga do not reflect the benefits of the use of disinfectants to control microbial contaminants.

The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency’s Safe Drinking Water Hotline (800-426-4791).

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency’s Safe Drinking Water Hotline (800-426-4791).

Information about Lead: If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water can primarily from materials and components associated with service lines and home plumbing. Dover Township is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When water has been standing in your service lines for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.
