## APPLICATION FOR EXTENSION OF ON-LOT SEWAGE DISPOSAL SYSTEM PUMPING INTERVAL

The Dover Township Code of Ordinances Section 26-191 requires that a property owner with an on-lot sewage disposal system must have the system pumped and inspected every four (4) years. The Township may allow a property owner to pump at less frequent intervals when the owner can demonstrate to the Township's Sewage Enforcement Officer [SEO] that the sewage system can operate properly without the need for a pump-out for a period longer than four (4) years. The maximum time period between inspections is eight (8) years.

The Township SEO shall determine if an extension of time is to be granted and the length of the extension. The Township SEO shall conduct an on-site inspection and take into consideration the sewer permit, the installation or rehabilitation of the sewage system, reports of inspection and maintenance of the system, and any other relevant information. The number of years between pumping shall be determined from the Penn State Fact Sheet F-161.

The fee for processing this Application is \$90.00, regardless of whether or not the Application is approved. Checks payable to Dover Township.
