### An Important Message About Medical Waste Disposal From Penn Waste

**Medical waste needs to be properly disposed of in the TRASH, not the RECYCLING.**

In 2016, Penn Waste received **over 500 pounds of medical waste** at our recycling facility! This is a **public safety hazard** for our team members who manually sort through the recycling and are at risk of getting stuck by a needle.

If a person does not have a sharps container to dispose of their medical waste, they should do the following:

- 1 Place their medical waste in a thick container that has a lid – such as a coffee can or detergent bottle.
- 2 Make sure the lid is secure on the container by duct taping it shut and place it in the TRASH.

Please help us keep our team members safe!

**Thank you!**

Creating a green community together

pennwaste.com

**Every year** Dover Township must report its recycling tonnage to the Pennsylvania Department of Environmental Protection. In exchange for this information, the Township receives a grant that is used to fund the Township's Yard Waste Recycling Program. **Please be sure to be vigilant in recycling all acceptable items. The more we as a Township recycle together, the less tax revenue is necessary to fund the Township operated curbside brush and leaf collections. In addition, if you take metal and other items to the scrap yard yourself, please bring a copy of the receipt to Dover Township and then this amount can be included in our report for credit!**

#### What to do with Electronic Equipment:

Bring electronics to the Authority's **FREE RESIDENTIAL** electronics recycling program **EVERY** Tuesday, Wednesday and Thursday from 3:00 PM to 6:30 PM at the collection site located on the 2700 Block of Blackbridge Road in the parking area directly across the street from the York County Resource Recovery Center located at 2651 Black Bridge Road in York.

## Special Needs Registry

### Special Needs Registry

**Do you or your family member have a special need?  
Are you able to evacuate your home without help?**

**Dover Township EMA can help you.**

Dover Township EMA works with York County Office of Emergency Management to see that all who have special needs can be registered.

If you have an illness, physical or mental condition that requires special needs, you are a candidate for registry.

The young and elderly are on Oxygen and need generators to operate their homes in emergencies.

Many residents are wheel chair bound and need assistance on evacuation.

The Dover Township EMA has a list of transportation agencies for bed confined, wheel chairs, walkers and those with illnesses including overweight residents. We will see that you are taken care of with TLC (Tender Loving Care) during an emergency.

If you fit any of the above descriptions, please complete the attached form. The information on the form is placed on a GIS mapping system at the township building after documentation on a database. This information will be used by the police, fire, EMS and EMA to assist you in an emergency.

Please send the form to Dover Township EMA and leave your special needs to us. One name per form and the form can be duplicated.

### Support Your Local Volunteers

The fire service is one of the most diverse and challenging vocations today. It is this diversity that attracts most men and women to join our ranks.

Different people volunteer for different reasons. Action oriented people enjoy the excitement and adrenaline rush that emergency services has to offer. Some see the volunteer fire service as an alternative to 'driving a desk by day' – by allowing them to 'drive a fire truck at night!'

Many like the feeling they get when they help people in their time of need and some feel it's their obligation to serve the community.

Imagine having to prepare yourself to cope with situations that range from structure fires to childbirth to hazardous chemical spills to heart attacks to almost any imaginable emergency in between. This diversity is coupled with the fact that these skills may be needed at any time of the day or night, seven days a week, in any kind of weather, and very often under potentially stressful and emotional circumstances. The personal rewards and satisfaction received from what we do is often beyond description. There is the sense of accomplishment when you control a building fire, joy and elation when a child is born, compassion for accident victims, and fulfillment from teaching fire safety.

The bottom line in our business is measured by the loss of life, pain and suffering, and the property damage we have prevented and reduced.

We hope that you give this decision the time and serious consideration it deserves, and decide to join our ranks.

Call us today at 717-292-4196 to schedule a tour or interview to learn more about live in programs or support from our home responders. We need all the help we can get as we respond yearly to 700 calls for service. Look forward to hearing from you!

#### Question:

Is it okay to put used coffee grounds down the drain?

#### Answer:

NO! Coffee grounds cause sewer blockages, most likely in your lateral. Coffee grounds do not disintegrate. They combine with any grease and other material in your drains, resulting in blockages, sewer backups and plumber bills. Used coffee grounds are great for composting and gardens, not for drains and septic systems.
