Mailbox Standards for Dover Township Residents

Below you will find a sketch showing the recommended location for you to place your snow before the snow plow arrives on your street.

We also suggest that you place your mailbox on the side of your driveway away from approaching traffic to allow our driver to properly clear the roadway and to get as close as possible to your mailbox to minimize the amount of shoveling you will have to do to clear the mailbox for the postal carrier.

Dover Township Employee Community Service Project

Dover Township has a longstanding relationship with New Hope Ministries and the Dover Food Bank. Through community events like Halloween and Christmas in the Park we have provided free hot dogs and drinks to attendees that brought canned goods to donate to the Food Bank.

This year, Summer Playground families collected school supplies to provide to New Hope for needy children in the Dover Area School District. Our Township Staff selected to aid the New Hope Back Pack supplemental nutrition program (easy to prepare and nutritious food is given to low-income children at the end of each week when school meals are unavailable).

We were able to fill the pictured trash toter, donated by Penn Waste, with donations to provide to the program for the start of 2018-2019 School Year.

Thank you to all the Township Staff that helped by contributing. Please consider making a donation to New Hope or the Dover Food Bank and help to support those in need in our Dover Community.

Ways for Residents to Conserve Water

1. Turn off water while brushing your teeth.
2. Have someone who you think is taking too long for a shower? Place a kitchen timer in the bathroom and set it. When the timer goes off, it's time to get out of the shower.
3. Put a ¼ or ½ gallon container filled with water in the tank area of your commode (avoiding the float/trap area). In this manner, every time you flush and the tank refills, it will have to fill that much less.
4. Only do dishes or laundry when you have a full load.
5. During a drought, save dish or bath water to water the garden plants.

DOVER TOWNSHIP RESIDENT COMMUNICATION

How do I receive notifications if there is a water, sewer or any other Township related emergency?

Please provide the Township office with contact information such as telephone number, e-mail and mailing address. We recently made public announcements through our auto dialer system and were told by several residents that their neighbors got the call but they did not.

The reason: We did not have your contact information. PLEASE make sure you get the next notification should there be one, by contacting Dover Township via email to jmclary@dovertownship.org or by calling at 717-292-3634 with your telephone number and e-mail address.

Dover Sewer Crew Project NOTIFICATION

Palomino Interceptor Replacement

On November 30, 2017, Dover Township Sewer Authority received bids for the replacement of 10" transite pipe with new 18" pvc pipe. The project extends from Thornton Automotive to Davidsburg Road. The lowest bidder was Anrich, Inc. with the amount of \$764,893.00. The project's substantial completion date is early summer of 2019. Should you have any questions or concerns about this project, please contact Dover Township's collection crew chief at (717) 292-3634.

Joint Interceptor Replacement

The first phase is immediately upstream of the Dover Wastewater Treatment Plant. The replacement includes 6,210 linear feet of 42-inch pipe with 54-inch pipe, 19 manholes and a confluence chamber at manhole J01003. This is where the Fox Run Interceptor joins into the Joint Interceptor. This phase is under contract and in the late stages of design. Permitting and ROW work is being completed with bidding expected in October 2018.

North of the Borough Sewer

This project is intended to eliminate I&I (inflow & infiltration) and Dover Township sewer from going to the Dover Borough treatment plant. It will replace an old 8" clay line with new 8" PVC. This project starts in our industrial area (Raycom). It will extend to Carlisle Rd and up to George St, where we will be installing a sewage pumping station. It will also go out Harmony Grove Road approximately 520 feet. This project is under contract and in the late stages of design. Permitting and ROW work is being completed with bidding expected in early 2019.
