Street Obstructions & Overhanging Tree Limbs

On July 27, 2020, the Dover Township Board of Supervisors approved Ordinance 2020-06 authorizing amendments to Chapter 21, Parts 5 and Parts 6 regarding Street Obstructions and Overhanging Trees. Some of the obstructions have been defined as the following:

1. Basketball nets/hockey goals within street right-of-way
2. Tree Limbs hanging lower than 15' over the street cartway or 9' above a sidewalk
3. Dumpsters/storage containers illegally parked on the street
4. Mulch/construction materials/grass clippings placed on public streets
5. Unattached trailers parked in the street

An update to this Ordinance will allow the Township to more effectively deal with violations of this Chapter. General motorists need a safe, unobstructed way to navigate the streets of Dover Township while delivery trucks, tractor trailers, and RV's need an unobstructed lane of travel free of overhanging limbs. A detail has been included below for reference. For a more comprehensive list of obstructions, please visit : dovertownship.org or call 717-292-3634.

HAZARDOUS WASTE CAUSES TRUCK FIRES

NEVER PLACE THE BELOW ITEMS IN
YOUR CURBSIDE TRASH & RECYCLING.

NO POOL CHEMICALS

Pool chemicals are extremely combustible which is why they cannot be disposed of in your curbside trash and recycling bins. To dispose of them, check with the store you bought them from to see if they have any resources for disposal. You could also donate them to a local pool or check with your local solid waste authority to see if they accept them.

NO RECHARGEABLE BATTERIES

Rechargeable batteries can easily start fires when combined with the right materials. Never place these in your curbside collection bins. Several retailers such as Lowe's, Home Depot, and Target offer drop-off programs. You can also check with your local solid waste authority to see if they accept them.

NO LIVE AMMUNITION

Live ammunition should never go in your curbside trash and recycling. Check with local law enforcement, indoor gun ranges, or your local solid waste authority to see if they accept live ammunition.

NO PROPANE TANKS

Propane tanks are extremely flammable and should never be disposed of in your curbside trash and recycling bins. Contact your local solid waste authority to see if they accept them or ask the vendor you bought it from if they will take them back.

Fall Leaf Collection

Fall Leaf Collection for 2020 will begin the week of November 9th and continue until mid-December or the first measurable snow.

Leaves shall be placed curbside. Foreign substances deposited in with leaves such as residential trash, tree limbs, shrub and hedge trimmings or stone will NOT be collected.

Sometimes Mother Nature does not cooperate with our schedule, either the leaves do not drop from the trees early enough or snow arrives before we are able to finish with the leaf collection. In this case, township residents can bring their (unbagged) leaves to the brush drop-off location on Municipal Road the second and fourth Saturdays of each month from 7am– 4pm.

The safety of our crews is very important, so please use caution when passing work crews along the roadways.

WATER LEAKS

Research has shown that water leaks can lead to 2,000—20,000 gallons of water being wasted each day. The 7 most common areas where leaks occur are:

- * SHOWERS/BATHTUBS * TOILETS
(ESPECIALLY THE FLAPPER IN THE TANK)
- * SINKS, FAUCETS, HANDLES AND PIPES
* DISHWASHERS
- * CLOTHES WASHERS * WATER HEATERS
* OUTSIDE SPIGOTS.

You can check for water leaks by using your water meter. Read the meter before you go to bed or will be away from the house for a period of time. Read the meter again when you wake up or return home. If the numbers have changed without any water being used, there is a leak somewhere in the house.

The majority of water leaks in a house are caused by running toilets. A good way to check for a leaky/running commode is with a simple dye test. Put some dark colored food coloring in the tank of the toilet and let it sit. Do not flush the toilets. After a couple of hours, check the toilet again. If any of the colored water from the tank is now in the bowl, you have a leaky toilet.

WAYS TO CONSERVE WATER

Turn off the water when brushing your teeth.

Use a kitchen timer to limit the amount of time in the shower.

Place a liter bottle filled with water in the tank of the commode, avoiding the float and trap area.

Only do dishes or laundry when you have a full load

During the summer dry spells, save bath and dish water to water the garden or plants.
