### Help Doug maintain a clean Burrowhood

**D**over Doug says DON'T DUMP IN his Burrowhood! Illegal Dumping Impacts our source water to the Dover Township Drinking Water System. It impacts the fish and wildlife that use the stream, like Doug. It degrades our stormwater that drains to other creeks and rivers, and the debris can increase the chance of property damage during flooding events. Help Doug maintain a clean Burrowhood by doing your part. Report violators to 911. If you live near a stream, clean up the debris that you see to help keep our community clean and protected. See the information on the law and penalties here: *PA Vehicle Code, Title 75, Chapter 37*, covers litter and waste dropped, thrown, or deposited from a vehicle that lands upon any highway, other public or private property without the consent of the owner, or into or on the waters of the Commonwealth. Vehicle owners are responsible even if the owner was not driving or was not in the vehicle. It is a summary offense and may be sentenced to either or both: 1. To pay a fine of not more than \$900 in an easement purchased under the Agricultural Area Security Law, \$600 in an agricultural security area, or \$300 anywhere else. Fines are doubled in designated Litter Enforcement Corridors. 2. To pick up trash: 1st conviction: between 8 and 16 hours. 2nd conviction: between 16 and 32 hours. 3rd and more convictions: 40 and 80 hours.

## It's Pool Season!

Thinking about purchasing a pool? Please call the Township to discuss the requirements for your pool installation. Many of the marketed inflatable pools available in stores and online retailers are *not* in compliance with the Building Code. If a pool is *capable* of holding more than 24 inches of water, it is defined as a Swimming Pool and *must* meet the requirements of the Dover Township Zoning Ordinance and the 2015 International Swimming Pool & Spa Code, as amended. Per Dover Township Zoning Ordinance, a pool must be set not closer than 10 feet to a side or rear property line. Any decking or concrete around the pool shall be at least 5 feet from the side or rear property line. Pool water shall also not be discharged onto any public street or alley, storm drain, or any neighboring property. Per the International Swimming Pool & Spa Code, a fence or wall acting as the pool barrier must be a minimum height of 48 inches. Gates installed in the barrier wall must contain an automatic latch, be self-closing, and open away from the pool. If your dwelling serves as one of your "barrier walls", the doors and windows having access to the pool area must contain an alarm producing an audible warning when the door or window is opened. For above ground pools, the height of the pool walls serve as the protective barrier if they exceed 48 inches and have a lockable ladder.

This information is being provided for informational purposes only and does not represent the comprehensive list of requirements associated with swimming pools. When submitting the required permit application for your pool, provide a site plan showing the pool in relationship to your dwelling and property lines, as well as the pool pump specifications. The basic electric requirements for pool pumps can be found on the "Permits & Forms" section of the Dover Township Website, along with the permit application and an example site plan. For more information, please call 717-292-3634 and ask to speak with someone in the Building Department.

*Enjoy the summer, and swim safely!*

## Highway Maintenance Projects

The Township will be resurfacing Belair Drive, and Raycom Road this year. Along with replacing storm pipes and inlets on Blackberry Road.

The Township Roadside mower will be out mowing all summer, please slowdown be on the lookout for that piece of equipment.

The township will also have a subcontractor in the next month or so repainting the yellow and white lines on our roads, so please do not blow your grass clippings, or other debris on the roads. Not only is this practice illegal, it does not help with the line painting.

*Construction on the Rohlers Church Road bridge replacement is proceeding.*

## How to Properly Dispose of HOT ASHES

In order to properly dispose of the hot ashes, here are some tips to keep in mind:

- If possible, allow ashes to cool in the area where you had the fire for several days. These areas are designed to contain their heat safely.
- When it is time to dispose of ashes, test to ensure the hot ashes are cool by placing them in a cardboard box or bag before disposal. In this situation, never leave these ashes unattended until they are cool enough for disposal. If the ashes are too hot, they will begin to burn through the box or bag.
- DO NOT dispose of hot ashes with yard waste, such as tree trimmings or leaves, the potential for fires increase substantially.
