Welcome,

Dover Township is a growing community with a hometown feel. It is a community where a full range of efficient municipal services are provided daily. The Board of Supervisors and I take great pride in providing high quality municipal services. Our staff works tirelessly to seize opportunities at grant funding in order to improve this community with as little need for tax increases as possible. Since 2016, we have been able to bring \$4.29 million dollars in grant funds to the Dover Community for planning initiatives, public infrastructure improvements, pollution reduction, flood mitigation and recreation growth. We will continue this worthwhile endeavor to provide quality services for you. Welcome to our community!

Sincerely,
Laurel A. Oswalt, CPM
Township Manager

Services We Provide

Building & Zoning Permits

Building permits are required for many household additions or alterations, including fencing, sheds & pools. A building permit application must be completed for your project (permits can be found on-line at www.dovertownship.org under Departments, Building/Property Codes. Select Permits & Forms). Your permit application should include the following:

A site plan that includes...

- your entire lot, with dimensions, street/road & label it
- your house, any buildings & your driveway
- your water/sewer lines or well/septic locations on your lot & where they enter your house
- your new project (shed, pool, garage, etc) on your lot with the size, indicate how far it is to all property lines
- any easements or right-of-ways on, or next to, your property

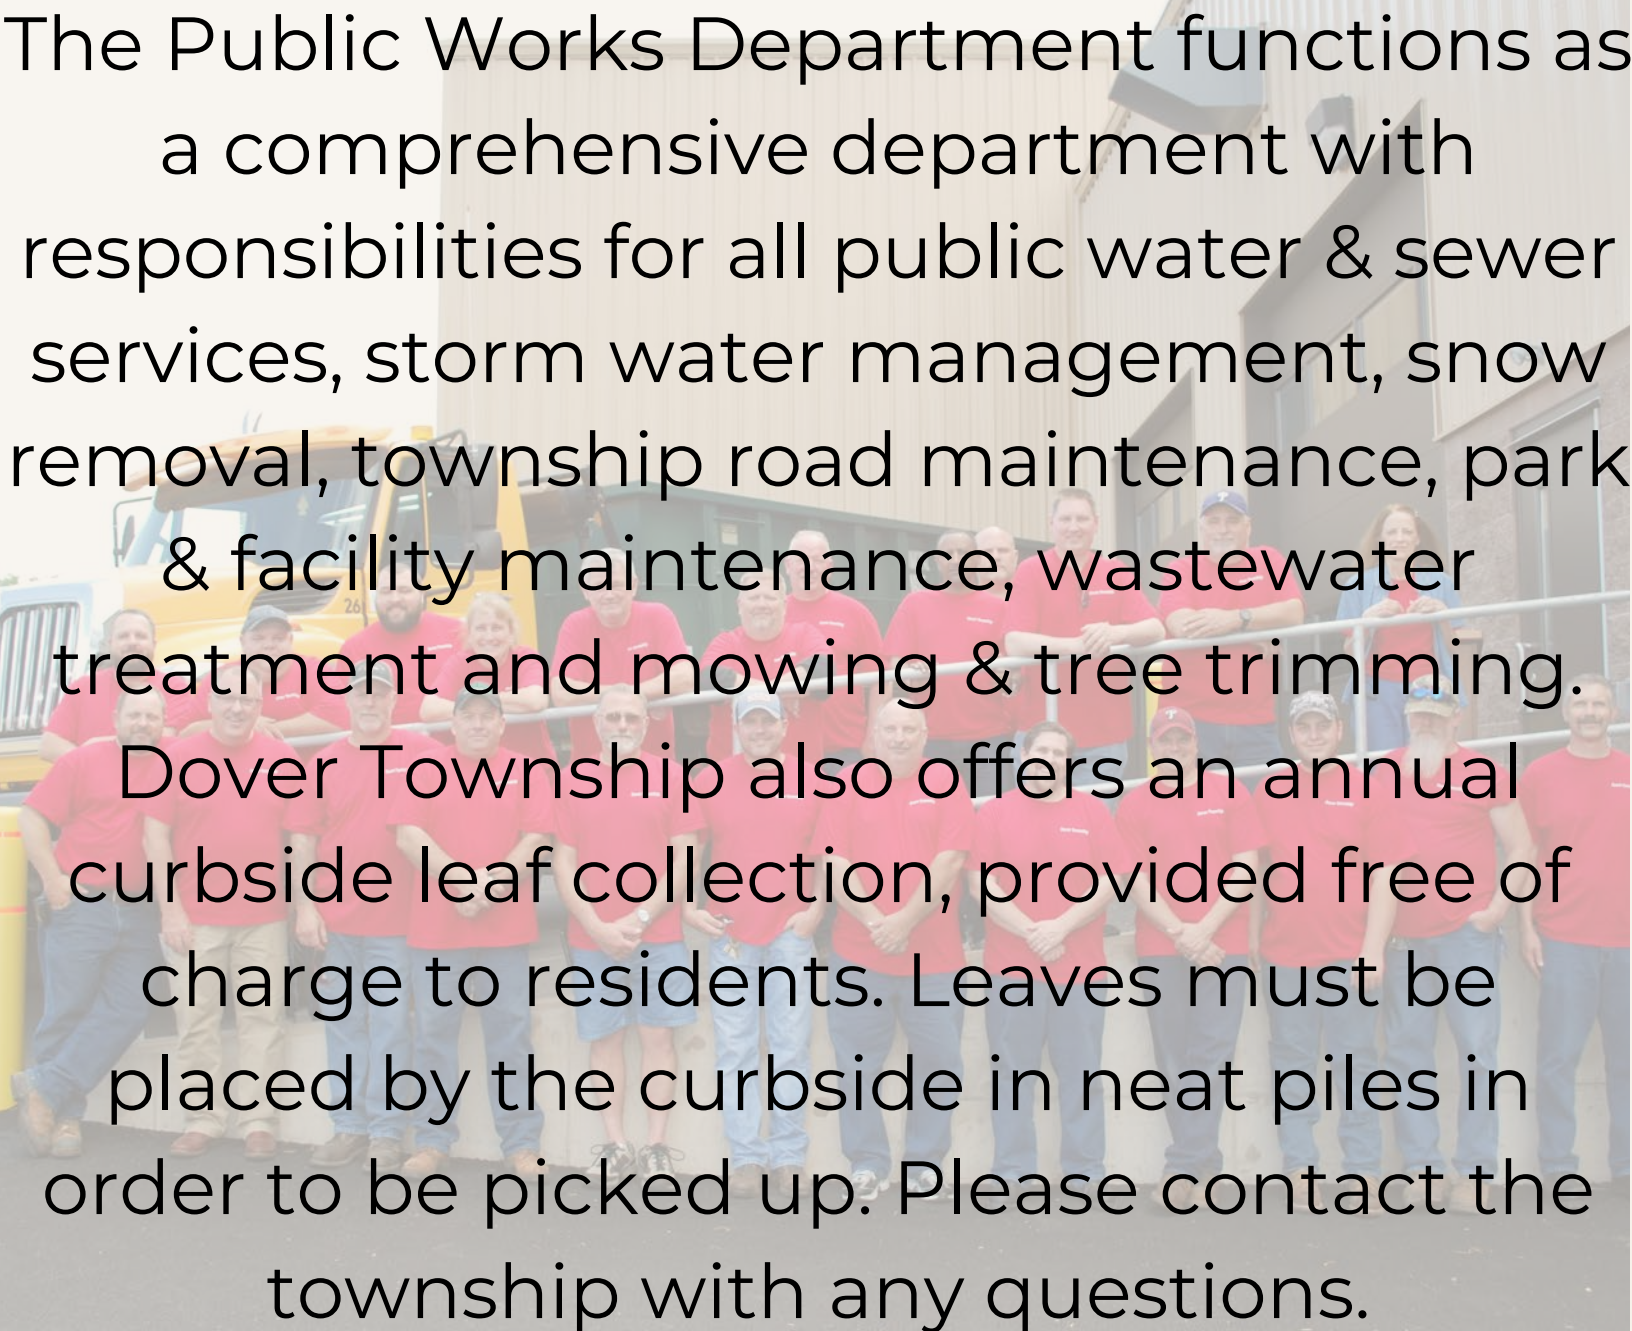

If you are hiring a contractor, a Certificate of Insurance with Dover Township listed as the certificate holder is required. Once the application is submitted with all the required & completed information, the township has up to 15 **business** days to approve or deny your permit. Your completed application will go to several different departments within the township and each department will check for the information they need & are required to sign off on for approval.

The application will finally make its way back to the Permit/Zoning office where it is reviewed & then finally issued or denied. As you can see, this process does take time. Permit and all other fees will be assigned when the permit is approved. Fees include plan review & all inspections.

NOTE: A Certificate of Occupancy will NOT be issued by Dover Township until all fees for inspections and re-inspections are paid in full.

Services We Provide

Public Works

A group of approximately 20 public works employees, mostly men, are posed for a group photo. They are wearing matching red polo shirts and various work pants. They are standing in front of a large yellow excavator and a light-colored building with large windows. The background is slightly blurred, focusing attention on the staff.

The Public Works Department functions as a comprehensive department with responsibilities for all public water & sewer services, storm water management, snow removal, township road maintenance, park & facility maintenance, wastewater treatment and mowing & tree trimming. Dover Township also offers an annual curbside leaf collection, provided free of charge to residents. Leaves must be placed by the curbside in neat piles in order to be picked up. Please contact the township with any questions.
