

Affected by the recent storm?

The York County Office of Emergency Management is asking property owners to file damage reports to see if the county qualifies to possibly get financial help from the state or the Federal Emergency Management Agency (FEMA). If you have not already reported your damage, please do so by using the

[Individual Damage Reporting Tool](#). You can find this tool by visiting yorkcountypa.gov and searching 'Damage Reporting'.

Damage includes: structure damage, foundation collapse, water in basements and living areas, private lane and bridge washouts, loss of personal belongings, water logged appliances and utilities.

After damages are recorded and evaluated, financial assistance in the form of grants and low interest loans MAY be available.

Those without internet access may contact our office, Monday-Friday, 8am-4:30pm to report damages.
